PolyLok™ Packaging

PolyLok™ High Strength polyethylene adhesive for the coupling of PE pipe to standard PVC couplings and other non-standard materials. One 50ml cartridge of PolyLok™ can adhere 20 to 25 2” couplings.

PolyLok™ (by the case)

PolyLok™ QuikChange 1.7oz 50 ml Cartridges 600 ml per case	High Strength polyethylene adhesive for the coupling of PE pipe to standard PVC couplings and other non-standard materials. PolyLok™ is a 1:1 mix, fast set, high strength adhesive. Each case is capable of joining approximately 250+ 2” couplings.	Case Contains: (12) 50 ml cartridges (24) Static Mixers (1) DK-104 Dispenser
--	---	---

PolyLok™ (Field Kit)

PolyLok™ QuikChange 1.7oz 50 ml Cartridges 100 ml per case	High Strength polyethylene adhesive for the coupling of PE pipe to standard PVC couplings and other non-standard materials. PolyLok™ is a 1:1 mix, fast set, high strength adhesive. Each case is capable of joining approximately 40 to 50 2” couplings.	Case Contains: (2) 50 ml cartridges (10) Static Mixers (1) DK-104 Dispenser
--	---	--

Individual Components (PolyLok™ and accessories)

DK-104 Applicator	Designed to accept the PolyLok™ 50 ml cartridge. The DK-104 provides accurate flow and makes joining couplings a snap. Just load the cartridge and pull the trigger.	(1) DK-104 Applicator
------------------------------	--	-----------------------

.21” ID Static Mixer	.21” ID x 17 Element Static Miser designed to deliver accurate applications to any surface.	(1) .21” ID Static Mixer
---------------------------------	---	--------------------------

PolyLok™ 1.7oz 50 ml Cartridge	50 ml cartridge - PolyLok™ is a 1:1 mix, fast set, high strength polyethylene adhesive.	(1) 50 ml dual cartridge
---	---	--------------------------

Pipe Scrapers	¾” and 1”, 1 ¼”, 2”, & 3”, 4”, 6”
